

# SAND STABILIZATION SOLUTIONS

- EBS is a very effective sand stabilizer for dust and erosion control.
- Initial application will last 5 + years.
- Easy to apply and environmentally safe.
- Forms invisible crust leaving natural colour & environment.

VALUE ENGINEERED SOLUTIONS™  
FOR SAND MITIGATION

SOILSOLUTIONS®

WE PROVIDE SAND  
STABILIZATION FOR

- ROAD SHOULDERS
- ROADSIDES & EMBANKMENTS
- RUNWAY SHOULDERS
- RAILWAYS

WE GUARANTEE A REDUCTION IN DUST

WE GUARANTEE A REDUCTION IN DRIFTING SAND

WE GUARANTEE SUBSTANTIAL REDUCTION IN MAINTENANCE

**SPECIFICALLY ENGINEERED  
DESIGN FOR SAND  
MITIGATION INVOLVES:**

- Aeolian geomorphology
- Fluid and porous mechanics
- Wind engineering studies
- A number of other environmental factors
- Implementation of sand mitigation techniques

**SIMPLE & EFFECTIVE  
INCREASES SAFETY  
DECREASED MAINTENANCE**

**BENEFITS**

- IMPROVE VISIBILITY
- IMPROVE ROAD, RAILWAY AND RUNWAY SAFETY
- REDUCE RAILWAY MAINTENANCE
- REDUCE AIRCRAFT MAINTENANCE
- ENVIRONMENTALLY SAFE
- EASY TO APPLY
- REDUCE ROAD SAND CLEARING
