

MINE HAUL ROAD SOLUTIONS

OUR VALUE ENGINEERED
SOLUTIONS® WILL
DELIVER RESULTS
THAT ALLOW MINING
COMPANIES TO...

- REDUCE CAPITAL EXPENDITURE
- REDUCE OPERATIONAL COSTS
- IMPROVE OPERATIONAL EFFICIENCIES
- IMPROVE PRODUCTION

Consider it Solved.

**DUST CONTROL IS NO LONGER
A DAILY REQUIREMENT
1 APPLICATION = 1 YEAR**

EBS
ENGINEERED BASE STABILIZER

An improved road surface using the innovative methodology (including EBS Surface Seal) completely eliminates the requirement for any further remedial works to the surface including grading, compacting and watering for dust mitigation purposes. Only an annual maintenance application is required at a reduced rate.

- PROVEN PERFORMANCE
- INDEPENDENTLY TESTED
- PROJECT REFERENCES AVAILABLE

WE ARE ON A JOURNEY TO MAKE A DIFFERENCE

**WE GUARANTEE
PERFORMANCE**

**WE GUARANTEE
SUBSTANTIAL COST
SAVINGS**

**WE GUARANTEE
SUBSTANTIAL REDUCTION IN
WATER USE**

**AN UNSEALED
MINE HAUL
ROAD, REDUCING
VISIBILITY AND
EFFICIENCY.**

SAFER SMARTER BETTER ROADS

- Increased driver visibility and overall road safety conditions
- Lower production cost per ton
- Reduced Road Maintenance
- Decreased Water usage
- Reduced fuel consumption for entire fleet
- Reduced environmental impact and CO2 emissions
- Elimination of dust (PM₁₀ and PM_{2.5} compliant)
- Increased overall operating efficiencies
- Reinforced haulage surfaces with increased load bearing capacity
- Increased work cycle efficiency
